OCULYZE

We are looking for a:

Freelance Android Developer

part time or full time; *position beginning* **as soon as possible**
in the **Berlin area, Germany**

About Oculyze GmbH

Oculyze, founded in 2016, is a multi-award winning technology Startup. We develop and build unique mobile microscopy solutions based on our image recognition and machine learning platform.

Our vision is: Image analysis for everyone, everywhere.

We have successfully managed the market entry with our first vertical application *"Oculyze - Better Brewing"* and are ready to expand and enter new markets in diverse industries including wine fermentation, veterinary and environmental diagnostics.

The Oculyze team members come from far and wide. Despite being a small team we have quite an impressive combined resume – with over 6 languages being spoken between us! Our team is made up of PhDs, engineers, foosball champions, sailors, synchronized swimmers, home brewers and deep, sarcastic souls.

Position

We are looking for a freelance Android developer to work with our existing software development team. The bulk of the work can be done remotely, but doing initial on-site on-boarding would be a big plus. The work consists of the expansion and maintenance of our various existing Android Applications (Git forks).

The initial Project scope could be up to 40 hours per week for several months and would be based on demand after. We are looking to build a strong long term working relationship.

Must Haves Skills:
- Extensive experience in Android Development
- Extensive experience with Git and Remote work
- English working proficiency (office language)

Nice to have:
- German Skills
- Experience with RESTfull APIs
- Experience with JSON
- Experience with Unit/Integration Testing

What we offer:
- Flexibility on hours based on your availability
- remote working
- Long term working relationship
- Offer to take part in Team Events (Berlin Area)
